

Garden Markers - the handiest way to keep plants organized!

Our metal garden markers are made in a variety of sizes and styles. All of the markers are 100% metal, made from 13 gauge galvanized steel wire and .010" specially treated aluminum sheeting for unbeatable durability. Select styles available in copper or a variety of colored painted plates.

C Series Markers - 1" H x 2.625 W"

Our C Series garden markers come pre-assembled and ready to use with an 1" x 2⁵/₈" face plate that is angled for easy reading. The reusable durable stakes are available in multiple lengths to fit any traditional garden or landscaping. We also offer a copper as well as painted garden markers in this series.

D Series Markers - 1.75" H x 2.25 W"

The D Series are an economical, less conspicuous, swinging marker whose popularity has grown over the years. It has found use in many garden environments where larger, more expensive markers are not practical. The D Series come in 10" length only with a labeling area of 1³/₄" x 2¹/₄".

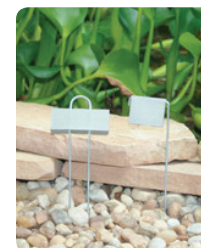

E Series Markers - 1.125" H x 3.5 W"

Clean looks, rounded corners, and the tilted aluminum 1¹/₈" x 3¹/₂" label plate of this marker make it a popular choice. They arrive unassembled with reusable face plates for easy writing. Choose from multiple lengths to fit your plant height and gardening needs. We also offer a painted garden marker in this series.

G Series Markers - 1.5" H x 3.5 W"

With a 1¹/₂" x 3¹/₂" aluminum label, these markers feature our largest writing surface and come on a 20" stake making them perfect for larger plants and gardens. Durable and reusable face plates are angled for easier reading. Packaged unassembled for easy writing.

Mini Series Markers

The Mini Series Markers are the same design as the popular "D" Series and "E" Series markers but in a miniature size. Mini D plates measure 1¹/₂" x 1" and Mini E plates measure 2¹/₂" x 1" and work well with small plants, starts, and labeling your potted plants. Both types are just 6" in height and offer the same quality in a smaller package making them ideal for marking where space can be an issue.

Tips for Marking and Unmarking the Labels

Nursery Pen (permanent markers) - holds up great in weather and sunlight and is easy to read. Moderately difficult to remove-try Mr. Clean Magic Eraser or some success has been found using the bathroom cleaner Lime-A-Way.

Marking Pencil - holds up OK in sunlight, can wash off in wet conditions. Easy to remove - try using hot soapy water.

Grease Pencil (also called a china marker) - holds up well in sunlight and is moderately weatherproof. Moderately difficult to remove - try using acetone or mineral spirits.

Uni-Paint Pen - contains enamel paint and additives which make it sun resistant and waterproof. Extremely difficult to remove - try using Dykem Paint Marker Remover or any other oil based solvent.

Dymo Marking Tape - Dymo recommends using the Permanent Polyester Tape (labels must be clean of all dirt, oil or debris). Easy to remove - try using rubbing alcohol or cooking oil.

Please note that after cleaning, every label must be rinsed thoroughly to remove any trace of cleaning product. Failure to do so may result in damage to the label. Metalgardenmarkers.com and/or Birddog Distributing Inc. do not in any way guarantee any method used to mark or remove the marking nor will we be responsible for any damage to labels in any attempt to mark or remove the marking from them.

Birddog Lighting

Add LED lighting to your backyard & garden!

Add LED rope or strip lighting to your landscaping, deck, or patio for the perfect evening ambience.
