Mini Markers - 1.5" H x 3.5" W

The Mini Series Markers are the same design as the popular "D" Series and "E" Series markers but in a miniature size. Mini D plates measure 1 1/2" x 1" and Mini E plates measure 2 1/2" x 1" and work well with small plants, starts, and labeling your potted plants. Both types are just 6" in height and offer the same quality in a smaller package making them ideal for marking where space can be an issue.

Tips for Marking and Unmarking the Labels

Nursery Pen (permanent markers) - holds up in weather and sunlight and is easy to read.
Moderately difficult to remove-try Mr. Clean Magic Eraser or some success has been found using the bathroom cleaner Lime-A-Way.

Marking Pencil - holds up OK in sunlight, can wash off in wet conditions.
Easy to remove - try using hot soapy water.

Grease Pencil (also called a china marker) - holds up sunlight & is moderately weatherproof.
Moderately difficult to remove - try using acetone or mineral spirits.

Uni-Paint Pen - contains enamel paint and additives which make it sun resistant & waterproof.
Extremely difficult to remove - try using Paint Marker Remover or any other oil based solvent.

Dymo Marking Tape - Dymo recommends using the Permanent Polyester Tape.
Easy to remove - try using rubbing alcohol or cooking oil.

Please note that after cleaning, every label must be rinsed thoroughly to remove any trace of cleaning product. Failure to do so may result in damage to the label. Metalgardenmarkers.com and/or Birddog Distributing Inc. do not in any way guarantee any method used to mark or remove the marking nor will we be responsible for any damage to labels in any attempt to mark or remove the marking from them.
